

VINAYA GUMMANURE SHIVAMURTHY

Dubai, UAE | +971 564500925 | vinayags1104@gmail.com

PROFESSIONAL SUMMARY

Analytical professional with 2+ years in enterprise operations and a strong foundation in data analysis, process documentation, and continuous improvement. Proven ability to translate complex technical workflows into clear, trainable SOPs and performance frameworks. Skilled in Microsoft Office (Excel, Word, PowerPoint) for metrics reporting and learning evaluation. Currently pursuing an MSc in Data Science bringing a structured, evidence-based approach to cross-training coordination, new hire development, and training effectiveness.

CORE COMPETENCIES

Training & Development: Process Coaching, Peer Mentoring, Knowledge Transfer, Skill Matrix Coordination, Audit Tracking

Data & Analytics: Data-Driven Process Improvement, Performance Feedback, Root Cause Analysis, Python, SQL

Communication Tools: Microsoft Office Suite (Advanced Excel, Word, PowerPoint, Outlook), Executive Presentations

Operations Management: SLA Compliance, Cross-Functional Support, Flexible Shift Readiness, Documentation

PROFESSIONAL EXPERIENCE

Tata Consultancy Services (TCS) — SBI GITC Client

System Engineer – Oracle Database Administrator

June 2023 – September 2025

- Evaluated, documented, and refined critical operational processes and database management techniques, creating updated training manuals and SOPs to ensure team alignment and standard compliance.
- Acted as a peer mentor and technical guide for cross-functional team members, translating complex infrastructure workflows into accessible learning materials to support operational skill requirements.
- Used and analyzed operational data on a daily basis to identify gaps in performance, utilizing Excel to track audit responses, track incident resolution times, and provide constructive feedback to operations teams.
- Partnered with cross-functional leaders to ensure operational records were kept up to date and that critical role requirements were met without service interruption.
- Demonstrated extreme adaptability and willingness to work flexible schedules, supporting mission-critical operations and technical deployments during high-demand periods.

PROGRAM MANAGEMENT & ANALYTICAL PROJECTS

Education Data Lead & Presenter | "The Migration Magnet"

- Organized and structured complex educational census datasets, transforming them into an interactive visualization tool.
- Utilized strong written and verbal communication skills to present findings, effectively training stakeholders on how to interpret and interact with the data models.

Data-Driven Process Optimization Pipeline

- Developed Python-based scripts to automate the evaluation of text data, demonstrating a strong capability in using technical analytics to gather feedback and improve existing data ingestion processes.

EDUCATION

Master's Degree in Data Science (Currently Pursuing)

Dubai, UAE

Bachelor of Technology in Computer Science & Engineering

Presidency University, Bangalore | 2018 – 2022

CERTIFICATIONS & ONGOING TRAINING

Languages: Fluent in English (Speaking, Reading, Writing), Hindi, Kannada.

Certifications: Artificial Intelligence, Machine Learning, Python Programming.

Software Proficiency: Microsoft Excel (Data analysis, Pivot tables), PowerPoint (Training presentations), Word (Documentation), Outlook (Coordination).
